

Allowable Subject Matter

Applicant's amendment of 9-8-09 and the abandonment of the copending application 10/559,328 have overcome the previous rejection of provisional double patenting. Thus, said rejection is now withdrawn for the allowance of pending claims 1-17, 22 and 24-26.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The invention is drawn to compounds of formula (I) or (IA) which is an $\{[(R^5)\text{acetamide}]\text{-pyrazolyl}\}$ -quinazoline. The closest reference is **Heron et. al.** (US 7,528,121 B2), which teaches relevant compounds. However, Heron's compounds do not have an acetamide group attached to the nitrogen of pyrazolyl ring. Also, Heron's patent does not antedate the instant application, and thus, it is not a competent prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TAMTHOM N. TRUONG whose telephone number is (571)272-0676. The examiner can normally be reached on M, T and Th (9:00-5:30).
